Sub: Five Day Online Workshop on Solidwork (Solidworks Esentials)

About DIC:

Design Innovation Centre (DIC) is a project of the Gujarat Technological University (GTU) funded by Department of Higher Education, Ministry of Human Resource Development, and Government of India in May 2018.

The Gujarat Technological University, Design Innovation Centre is to provide a platform to students, faculty members and researcher having enthusiastic for learning and creativity, and passion to convert their ideas into design innovations.

About Workshop:

SOLIDWORKS Design Workshop will explore the fundamental and advanced modeling techniques available both within the 2D and 3D SOLIDWORKS environment.

SOLIDWORKS Essentials covers the fundamentals of SOLIDWORKS and is the foundation on which you can build your modeling skills. It covers the base concepts and conventions on which the rest of our SOLIDWORKS classes are based. If you need to create drawings of your designs, SOLIDWORKS Drawings will show you how to make complete design documentation. Part Modeling and Assembly Modeling will complete your knowledge of solids modeling tools and techniques. If your designs require complex or organic shapes, Advanced Surfacing Modeling will introduce you to surface modeling techniques.
