No. Of Registration: 198

No. of Participants: 40

The main objective of the webinar was to give design knowledge to the new innovators. The session started by Mr. Parth Sejal to address all the students and faculties. Mr. Anand Saboo was a speaker at the webinar. His topic was all about design in a project. The webinar started with him on what is design thinking and what is design? He explained the power of designs and their factors. The next topic was the design process for students in the engineering field. Mr. Anand Saboo explained the first step of the design process to the final service of design. The next slide was all about the skills of designers. Knowledge, skills, and attitudes are the factors of designers. After that, there were question-answer sessions between the Audience and Speaker.
