Expert Name: Ms. Niyati Raval

Live on FB Page:

<https://www.facebook.com/gtudichub/videos/1754126951377582/>

No. of Participants: 22

Design Innovation Center (supported by MoE) initiated a webinar on Python programming for the students and enthusiasts who want to learn Python programming. This webinar was conducted with the motto to give a brief overview of Python, the future possibilities, and scopes. The participants were encouraged to join the future course may conduct by DIC – GTU on the relevant topics. The webinar was conducted by Ms. Niyati Raval, Research Assistant at Design Innovation Centre, GTU.

Event Highlights:

The top screenshot shows a Zoom meeting interface with a list of participants and a chat window. The bottom screenshot shows a slide from the webinar with text about Python lists:

```
are in Python that is a mutable, or changeable, ordered sequence of side of a list is called an item. Just as strings are defined as characters having values between square brackets | |.
```

```
0 argument and no return value.  
here and with a Return value.  
argument and No Return value.  
t and return value.
```
